

*"Family Code Night"* is a series of 2 hour workshops in which children in year 4 and 5 and their parents do computer coding – together! In this special evening of learning and fun, you'll play in parent-child teams to complete fun Lego Wedo workshops and challenges at your own pace, and learn core concepts in coding. Afterwards, you'll go home with a special "Code On at Home" guide to continue coding puzzles, learning and fun at home. No coding experience is required, laptops & tablets will be available if needed (bring one device for each two attendees if you can). This is a great experience to share with your children!

The program is free, but space is limited, so please sign up today! You'll be coding with your child in no time!

**Volunteers are Welcome! Or join us as a Coach!**

Parents who want to help out as event Volunteers are welcome. And parents and children with tech experience, are encouraged to register as Code Coaches. We'll send you the details in advance. Just choose a date and we'll meet up a few minutes before the event for orientation.
