The Wellness Pod – Educational Support

Dear Parents/Legal Guardian,

Karl Vella Foundation (KVF) provides psychotherapeutic support to families and children who are going through an illness or loss of a family member. Through the Wellness Pod programme, the children are equipped with skills that help them process their thoughts and express their emotions in a safe place, through various therapy sessions and modalities, such as; arts, crafts, mindfulness, body movement and stories.

As of February 2024, KVF will be introducing an innovative service to support children in academic subjects. Children between 5 and 17 years of age, who were disrupted by an illness or loss of a family member, are eligible for this service. During 2024 this service is being supported by The Ministry for Education, Sport, Youth, Research and Innovation. If you would like your child to benefit from this service kindly follow the link below and we will get in touch with you with more information.
